Regional Refugee Response for the Ukraine Situation

SLOVAKIA | REFUGEE RESPONSE PLAN 2024
MID YEAR | INTERAGENCY FUNDING OVERVIEW

Within the framework of the inter-agency Regional Refugee Response Plan (RRP), 25 partners in Slovakia have joined efforts to provide protection services and multi-sectoral humanitarian assistance to refugees from Ukraine, third country nationals and other persons in need, and also support the host communities. The current number of the RRP partners is only indicative and not exhaustive of the operational number of humanitarian partners in Slovakia. The RRP in Slovakia complements the Government-led efforts and it builds on the collective and coordinated work already being done in the country, including with the support of volunteer groups and other local responders, and promotes an area- and needs-based approach.

The RRP provides an overarching vision and coherent engagement among all partners in the refugee response, including by presenting their financial needs for the implementation of their response activities. All agencies appealing for funds in the Slovakia RRP for the Ukraine Situation are reporting on the funds received for programmes in the RRP. Reporting on funding received, collection and analysis of financial data are ongoing and the fullest possible set of regularly updated information will be made available, accordingly.
